CLAT 2027 UG Syllabus

The **CLAT 2027 UG syllabus** is designed to assess the comprehension, reasoning and analytical abilities required for legal education. The examination is primarily an aptitude-based test and does not assume prior knowledge of law. However, awareness of current affairs and general knowledge may be useful, particularly in the Current Affairs including General Knowledge section.

English Language

The English Language section consists of passages of approximately 450 words, drawn from contemporary as well as historically significant fiction and non-fiction.

Questions assess your ability to understand and analyse the passage, including identifying its main ideas, arguments and viewpoints. You may also be required to draw inferences, reach conclusions, summarise information, compare different viewpoints, and understand words and phrases in their contextual meaning.

Current Affairs including General Knowledge

This section uses passages of up to approximately 450 words, based on news, journalistic sources and other non-fiction material.

The syllabus covers significant contemporary developments in India and around the world, along with areas such as **arts and culture, international affairs, and historical events of continuing significance**. Questions may also involve legal information connected with a passage, but the passage itself should provide the information necessary to answer such questions without requiring additional legal knowledge.

Legal Reasoning

The Legal Reasoning section presents passages involving legal issues, public policy questions, or moral and philosophical matters, often through specific factual situations. **Prior knowledge of law is not required** to attempt this section.

The syllabus focuses on your ability to identify and understand legal or other principles presented in a passage, apply those principles to different factual situations, and determine how their application may change when the underlying rule or principle is altered. A general awareness of contemporary legal and moral issues may assist in applying these principles.

Logical Reasoning

The Logical Reasoning section consists of passages of approximately 450 words and tests your ability to understand, analyse and evaluate arguments.

The syllabus covers identifying arguments, their premises and conclusions; examining patterns of reasoning; assessing the role of evidence and assumptions; determining how changes in premises or supporting facts may affect conclusions; drawing and applying inferences; and identifying relationships, analogies, contradictions and equivalent propositions. You may also be required to assess the strength or effectiveness of an argument.

Quantitative Techniques

The Quantitative Techniques section presents numerical information through short sets of facts, propositions or other textual formats. Questions require you to extract, interpret and manipulate the relevant numerical information and apply appropriate mathematical operations.

The syllabus broadly covers **Class 10-level mathematics**, including areas such as **ratios and proportions, basic algebra, mensuration and statistical estimation**.

NOTE FROM US, TO YOU

Quality Over Quantity — Because Your Time Matters

If you are preparing for CLAT, you are probably preparing for several other things at the same time — **your Board examinations, other entrance tests, school assignments, classes and everything else that comes with being in Class 12.**

The last thing you need is an endless pile of study material telling you that you must study more, practise more and somehow find more hours in the day.

At ILS, we believe that **quality matters more than quantity**.

That is why we have carefully curated our **CLAT 2027 in 50 Days** programme to give you a structured and focused preparation plan. The programme is designed so that, with consistent effort, you need not spend **more than about three hours a day on CLAT preparation** during these 50 days.

The objective is not to make you crumble under the pressure of preparation. It is to help you **prepare intelligently, practise consistently and learn from every attempt.**

TRY OUR FREE CLAT 2027 MOCK TESTS

We have prepared **2 CLAT 2027 Mock Test Papers with Answer Keys**, developed after studying **earlier CLAT question papers, recurring patterns, question trends and the changing nature of the examination**. But getting the answer right is only half the exercise.

Each Mock Test is accompanied by a separate Reasoning Sheet explaining why the correct answer is the right choice and why the other options do not fit. Because preparation is not just about working hard — it is also about **understanding where you went wrong, correcting your approach and making sure you do not repeat the same mistake in the next paper.**

Want the Reasoning Sheets for the 2 free Mock Tests?
Simply email us your email address and we will send them to you.

Ready to Take Your Preparation Further?

If you think you are up for the challenge, explore **CLAT 2027 in 50 Days — ₹2,000 only.**

The programme includes:

- **50 Exclusive CLAT 2027 Mock Test Papers with Answer Keys**
- **A separate Reasoning Sheet for every Mock Test**
- A structured **50-day Study Schedule**
- **Short, focused quality videos** to guide you through your preparation

50 days. 50 mocks. 50 opportunities to identify, understand and correct your mistakes.

Hard work matters. **Knowing how to improve from every attempt matters just as much.**
